

JANAM SHAHI

BIM Student • Aspiring Software & Web Developer

Location Dhangadhi, Kailali, Nepal	Email shahijanam633@gmail.com	GitHub github.com/janamshahi
--	---	--

PROFILE

Bachelor of Information Management (BIM) student with a strong interest in software development, web applications, databases and practical technology solutions. Experienced through academic and personal projects using Python, Django, HTML, CSS, JavaScript and database technologies. Interested in improving programming and problem-solving skills while building useful digital products.

EDUCATION

Qualification	Institution / Board	Status
Bachelor of Information Management (BIM)	Tribhuvan University	Running
+2 / Higher Secondary	NEB	Completed
SEE	NEB	Completed

TECHNICAL SKILLS

Programming: Python, JavaScript

Web: HTML5, CSS3, Bootstrap, Responsive Web Design

Framework: Django

Database: SQLite, MySQL, SQL

Data & Visualization: Pandas, NumPy, Matplotlib

Tools: Git, GitHub, Visual Studio Code

PROJECTS

- **Online Food Ordering System** — Django-based restaurant ordering platform with menu browsing, cart, checkout, order management, delivery workflow and restaurant dashboard.
- **Hospital Management System** — Web-based system for patient registration, doctor scheduling, reports, billing and administrative management.
- **EV Charge Station Finder** — Project concept designed to help electric vehicle users find charging stations and related information.
- **Share Market Analysis** — Project concept involving financial data analysis and visualization using Python data tools.

TRAINING & LEARNING

- AWS workshop / cloud computing learning
 - Networking training and practical learning
 - Continuous learning in Python, Django, databases and web development

GITHUB

Public coding profile: github.com/janamshahi

Repository work includes programming practice, academic projects and software development experiments.

CAREER OBJECTIVE

To develop strong professional skills in software and web development, gain practical industry experience, contribute to meaningful technology projects and grow into a capable software developer.
